

## FOLLOWING THE HISTORY TRAIL

Your island has had its fair share of natural disasters throughout its history. Look back at the chronicles of your island and record any major disasters that may have occurred. How did these disasters shape your island? Have you heard any stories about them? Are there things that could have been done to save more people or foresee what was to come?

Your challenge is to create a short imaginary story, based on and inspired by an actual local natural disaster.

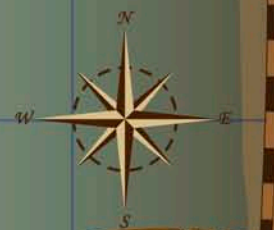

THE TRAIL OF ISLANDS

## A CALL FOR HEROES: 'PROTECT THE CITIZENS' PROTOCOL

Everytime a natural disaster occurs near a populated area the loss of human lives is the most crucial issue, but not the only one. Do a small research as to your town's action plans regarding natural disasters. Use the 'Stop disasters!' game to learn more about how to protect the citizens.

Your challenge is to create a short citizens' protection protocol to help your local community protect its citizens from any upcoming natural disaster.
