

THE TRAIL OF ISLANDS

The trail of islands is an international journey that students are invited to. During their trip along the trail, they will have the opportunity to meet 'fellow travelers' from different islands and collaborate with them to complete a number of challenges. The trail will be followed by four crews, one from each island.

THE ISLAND TREASURE CHEST

To get the trail started all crews first have to introduce themselves as well as their island to their fellow travelers. To that end you will need to prepare a treasure chest within which you will include different elements that represent you and your island. At the back of this message you will find some hints as to what to include. Feel free to be original and creative! Once you send out your treasure chest, you will receive in return another treasure chest with treasures from the crews of the other islands. In that chest you will also find instructions for the challenges your crew will undertake. Good Luck!

Prepare your treasure chest and send it to:

Priscila Doran

Largo dos Topázios, 48, 3 Frente,
2785 - 817 São Domingos de Rana,
Portugal

Remember! - Your treasure chest will reach 3 more crews so everything you include in your chest must have 3 copies!
